New Service Installation:

For water services not previously installed by the developer, the Applicant must hire a contractor to excavate, tap the water main and install the water service line from the street to the building. The contractor shall be approved by the District, supply the District with an insurance certification and submit a performance bond in the amount of \$5,000.00 prior to excavation. The Applicant is responsible for entire cost of installation, including any expense from the disturbance of asphalt or concrete areas, abutters properties, permits, special equipment and traffic details as needed. All installations will require materials that are approved for use by the North Sagamore Water District. All construction will be completed under the supervision of the District's representatives or its agents. Once the water service is installed and inspected, and all disturbed areas have been returned to their previous state, District personnel will turn on the water service, supply and install a cellar valve and water meter. All work completed by the contractor shall be guaranteed for a period of one (1) year from the date of the water service being turned on.

Temporary Water Service - A minimum fee of \$100.00 is to be charged for a temporary service plus a meter will be installed and the amount of water used for this temporary service will be charged.

Fire Service Connection Review Fee (*unmetered*): \$300.00 – includes internal plan review, fire flow testing and inspection of installation. All engineering is done by the applicant.
