May 18, 2026

Dear Valued Customer,

We are writing to inform you of a temporary water service interruption scheduled for **Thursday, May 21, 2026 from 7:00 am to 4:00 pm**. This brief shutdown is necessary to conduct upgrades to the water system.

During this time, you may experience the following:

- Complete loss of water service
- Low or no water pressure
- Discolored or dirty water once service is restored. This is normal and typically clears after running cold water for a few minutes.

We recommend storing any water you may need during the early morning hours for drinking, cooking, or hygiene purposes. If you notice discolored water after service is restored, run cold water from a faucet, preferably a bathtub or outdoor spigot, until it clears.

We understand that service interruptions are inconvenient and appreciate your patience and understanding as we work to improve your water system.

If you have any questions or concerns, please contact us at 508-888-1085 or visit www.northsagamorewaterdistrict.com for more information.

Thank you for your cooperation.

Sincerely,

Drew Buckley

Superintendent

North Sagamore Water District
